Develop a feasible after high school financial budget utilizing the Excel spreadsheet which can be downloaded from:

http://markeredwards.com/algebra1P1/Budget%20Computer%20Lab.xlsx

An image of an example output of this spreadsheet is shown on the reserve of this page.

Create a word processed document for this project submitted to mheinen_1@msn.com as an email attachment **NLT midnight , Monday May 20, 2019** for a grade.

Project specifics:

Assume you will live in the Colorado area and possess skills of a CCHS graduate only.

Word processed document outline form must be similar to the "Rocket Regression Lab By Heinen" which can be viewed at: http://markeredwards.com/stats/HeinenM-RocketLab.pdf

The project's grade will be correlated to the **realism and quality** of expected income and expenses.

Explicitly include and cite in your paper all your research into your income and expenses categories.

Include all assumptions and possible hazards to the successful implementation of your budget

It is recommended you review this proposed budget with your parental units before submission.
